

FOR IMMEDIATE RELEASE

CLEAN HOLDING COMPANY
ENTERS AGREEMENT TO
ACQUIRE 1,650-ACRE EAST
TEXAS ENERGY
INFRASTRUCTURE CAMPUS TO
SUPPORT MULTI-GIGAWATT
HYPERSCALE DATA CENTER
AND INDUSTRIAL
DEVELOPMENT

East Texas, May 8, 2026 — Clean Holding Company ("CHC"), a U.S.-based clean and hybrid energy infrastructure developer, today announced that it has entered into an agreement to acquire an industrial property in East Texas.

The acquisition supports CHC's long-term strategy to expand its energy infrastructure portfolio and commitment to future development and job growth in the region.

Additional details will be announced as CHC works with local stakeholders and development plans progress.

About Clean Holding Company

CHC is a U.S.-based energy infrastructure developer specializing in modular generation systems, hybrid energy storage deployment, and behind-the-meter power solutions for hyperscale data center and industrial customers. The company focuses on rapidly deployable, scalable energy architectures designed to support next-generation digital infrastructure demand.
